Shuimu College, Tsinghua University

Thank you letter

Dear IDEGA,

Greetings!

During the just-concluded winter vacation, your institute provided tremendous support for our students' social practice at USC. We extend our sincere gratitude!

Your institute offered invaluable academic resources and research insights. In particular, we thank your researchers for their professional guidance on regional economic development and data analysis. Your interdisciplinary approach in economics, geography and sociology greatly enriched our students' understanding of Galicia's socio-economic dynamics.

Social practice is central to Shuimu College's talent development. Your expertise has enhanced our students' international perspective and research capabilities.

We hope to deepen cooperation in the future, exploring joint research and academic exchange together.

Thank you again! We express our highest respect to all IDEGA researchers involved!

Shuimu College,

Tsinghua University
